WHAT IS PHARMACY

Pharmacy refers to the field of study and practice related to pharmaceutical sciences, which involves the discovery, development, production, and distribution of drugs and medications.

WHY STUDY PHARMACY

Pharmacy education in India provides students with a comprehensive understanding of pharmaceutical sciences and prepares them for rewarding careers in various sectors of the healthcare and pharmaceutical industry.

India's pharmaceutical industry is one of the largest in the world. The Indian pharmaceutical market is expected to reach 3 lakh crore rupees by 2030, driven by factors such as increasing healthcare expenditure, growing population, and rising demand for generic drugs.

PRICIPALS DESK: A MESSAGE

It gives me immense pleasure to Welcome to the SBNMS D.Pharmacy College. The college has remained a place of excogitation and excellence in Pharmacy education. As the needs of society and the profession change, the college explores new programs to better prepare upcoming pharmacists for an expanded role in the health care profession. The continuous changes in responsibilities and scope of practice of the pharmacists demand a serious commitment to life-long learning. In order to handle this arduous task, our college has excellent group of faculty who are highly qualified and intrinsically motivated. They leave no stone unturned to mould the career of our students.

Our college gives the society professionals who are industry ready. They are facilitated to such great extent that they become assets to the organizations they associate with in addition to being responsible citizens of the global healthcare community.

Best wishes

Dr Suraj Nanaware
Principal
